Equipment

Please list all equipment related to disaster event work that you **OWN** or lease on a regular basis and operate with your employees on a separate sheet. If you have 3 bucket trucks you do not have to list each individually, just note the quantity. Please include bucket trucks, hauling equipment, skid steers, excavators, loaders, grinders and chippers, as well as any staff important certifications, such as line certification and certified arborists.

Please list all equipment related to disaster event work that you could provide through subcontractors. All subcontractors need to have workers compensation and liability insurance as well. We are not asking for your subcontractor's names, just the types and quantity of equipment they can provide.

Make, Model and Year of equipment is not necessary. You can list equipment as a 55 foot working height bucket or a 55 cy knuckle boom or a 700 hp tub grinder would be fine.

Please submit these lists along with your insurance and W-9. You can fax this to 901-367-8303. Or email to am@mtlmemphis.com.

We appreciate your cooperation in this matter and look forward to seeing you soon.
